

MicroLite

The MicroLite is taking 'portable' to a whole new level with a total weight of just 17.9 kg including battery and seat.

The 230W motor will give you enough power for those essential journeys and the tight turning circle will help you in those busy or narrow places.

Simply lift in and out of the car just like a shopping bag... it's that light!

Thank to its lightweight qualities, the MicroLite is easy to lift in and out of your car boot for the times you need it the most.

Simply take off the folding seat and battery, fold the tiller down, and it's ready to store away.

It has a lightweight frame, tight turning circle, and a single motor which can make it the ideal portable mobility scooter for those busy shopping aisles, high, streets and crowds.
