#### Technical data:

##### Structure:

Seat: in stainless steel chrome nickel 18/10 – UNI X5 CrNi1810; sheet thickness 1 mm; internally reinforced with chipboard disc.

##### Finish:

Seat: polished.

Base: opaque.

##### Other components:

Such as screws and other mechanical parts, different materials suitable for the purpose are used.

##### Cleaning:

Normal detergents can be used for cleaning, provided they do not contain chlorine and its compounds. When cleaning, it is important to follow the satin finish of stainless steel, without exerting too much pressure.

For extremly stubborn stains, specific products for stainless steel should be used.

##### Important notes:

1. Do not use scouring pads or anything else that may scratch or scrape.
2. Avoid using muriatic acid or bleach.
3. Do not leave iron objetcts for a long time.
